

HI BRIGHT-V SERIES MV-HBV

SPECIFICATIONS

65"

59"W x 35"H x 6"D

75"

65.72" x 39.18" x 2.65"

Our MirageVision Hi Bright-V models are designed for hi-end commercial and residential applications. These models are equipped with Mega Hi-Brightness (up to 2500+). There is very little picture degradation when used in full bright daytime sunlight. For the customer who expects the same picture quality in full sunlight when compared to any top of the line indoor TV/display unit.

FEATURES

TEMPERATURE MANAGEMENT

An innovative vortex fan system to dissipate humidity with a wide operating temperature range so no air conditioning or heating elements are needed.

ENHANCED BRIGHTNESS LED BACK-LIGHTING

The LED Back-light is approximately over 8 times brighter than any normal indoor TVs

BUILT IN ANDROID MEDIA PLAYER

Powered by Android Operating System. (built in) So there is no need for external media devices and connections when using as an outdoor digital sign. (Optional)
